

**Avis aux étudiants de la FP-BM**  
**Offre de bourse du programme Erasmus Mundus pour**  
**le master international TROPIMUNDO en biologie**

**Dans le cadre du programme Erasmus Mundus une bourse pour le master international TROPIMUNDO en biologie, cordonné par l'université libre de Bruxelles, est offerte. Ci-dessous, les détails s'y rapportant.**

Dear All,

The Université libre de Bruxelles coordinates the Erasmus Mundus TROPIMUNDO Master programme, for which, until academic year 2017-2018 the European Commission offered a certain number of fully covering scholarships for EU and non-EU students. For the 2018-2019 call, the European Commission might provide a certain number of full scholarships for EU and non-EU students. Any information on whether or not the first ranked applicants will receive a scholarship will only be known in July 2018 (to start the programme in September 2018). There are no country restrictions whatsoever. As Erasmus Mundus is the educational excellence brand of the European Commission we are not allowed to use any other criteria than excellence to select the scholarship holders.

As we are looking for excellent candidates, would it be possible for you to disseminate the information below among your contacts?

This information is of particular importance for BIOLOGY students.

TROPIMUNDO is the first International Master in Tropical Biodiversity and Ecosystems (2 years, 120 ECTS) that allows students to delve into the interlinked ecosystems under threat by spending a full second semester of course work and field schools in the Caribbean islands, the African or Madagascar rainforest, or the Asian mangrove forest or rocky shores, and a fourth semester dedicated to thesis work related to tropical biodiversity and ecosystems. The other two semesters are covering basic and specialized courses in Belgium, Italy, France (incl. French Guiana and French West Indies).

For the 2018-2019 call, the European Commission might provide a certain number of full scholarships for EU and non-EU students. Any information on whether or not the first ranked applicants will receive a scholarship will only be known in July 2018 (to start the programme in September 2018). Selected scholarship holders will have their tuition fees and mobility covered in addition to receiving full insurance and monthly allocations.

**Application for 2018-2019 is now open and the deadline for applications is 30 November 2017.**

Further information on the TROPIMUNDO programme and the application procedure can be found at [www.tropimundo.eu](http://www.tropimundo.eu).

Please do not hesitate to forward the information to your colleagues, contacts or any other potentially interested persons.
